

Vault Protocol Sheet

Tier V Codex Reference

Generated: June 25, 2025

I. Vault Entry Protocol

- Biometric entry layer must be validated.
- Scroll access restricted by tier-level token permissions.
- Ambient chime confirmation recommended.

II. Scroll Engagement Sequence

- Users are presented a tier-filtered Codex Scroll.
- AI Copilot initiates upon scroll load.
- All sessions logged to immutable VaultLedger.

III. Strategic Integrity Guidelines

- No scroll may be exported without dual-key validation.
- Initiate, Operator, and Strategist tiers have distinct viewing rights.
- Breach of scroll integrity triggers audit protocol.
